

# Jon Atlas

Senior Front-End Developer / Portfolio: [Jon-Atlas.com](https://jon-atlas.com) / [jsa@jonatlas.com](mailto:jsa@jonatlas.com) / [LinkedIn](#)

As a Senior Frontend Developer I use my Javascript/ES6 | Typescript | React | jQuery | Bootstrap | NextJS | Vue | NodeJs | HTML5 | Redux | Wordpress | Sitecore | CSS3 / Sass | Tailwind | Ruby | WCAG and problem solving skills to create responsive and user-friendly websites and applications for various clients and projects. I have been working in this role for eight years, and I enjoy collaborating with other developers, designers, and stakeholders to deliver high-quality products that meet the client's needs and expectations.

I have a unique background for a techie, as I have a Bachelor of Commerce degree in Accounting/Management and previous experience as an accountant and a personal trainer. This allows me to bring to the position a strong business acumen, excellent communication skills, and a passion for learning and problem-solving. I am always eager to expand my knowledge and skills in web development and design, and to explore new technologies and tools that can enhance my work. I also take great pride in working with a team and helping / mentoring wherever I can. My goal is to create high quality websites and applications that are not only highly functional and attractive, but also WCAG compliant, ADA / AODA accessible, engaging, and impactful.

## WORK EXPERIENCE

---

### **XCentium** - Senior Front-End Developer

February 2021 - current

Irvine, California, United States - Remote

- Worked with design, product, and back-end teams to create 10+ web products.
- Agile environments – use of Jira and Azure, daily standups, 2-week sprints, code reviews, product releases.
- Highly proficient with GIT, pull requests and merging branches.
- Passion for mentoring junior developers to amplify their skillset
- Created 3 efficient and reusable front-end systems to drive web applications to the marketplace.
- Participated in product releases and code reviews with 5 senior developers and team leads.
- Ensured the technical feasibility of 120+ UI/UX designs.
- Highly proficient with accessibility, performance and cross-browser tools (WAVE, Google Lighthouse, BrowserStack) to improve the performance and quality of the product.

### ***Recent examples of work:***

A) [Revlon](https://www.revlon.com) - <https://www.revlon.com> - eCommerce - built many of the components using React / Sitecore / Javascript / Typescript / NodeJs / HTML5 / Sass / CSS3 / Rest APIs / JSON

B) [Laurel Springs School](https://laurelsprings.com) - <https://laurelsprings.com> - built many of the components using Next.js / React / Sitecore / Javascript / Typescript / NodeJs / HTML5 / Sass / CSS / Rest APIs / JSON

C) [F&M Bank](https://www.fmb.com) - <https://www.fmb.com> - built virtually all the pages/components using Sitecore SXA / Vue.js / NodeJs / Javascript / Typescript / HTML5 / Sass / CSS3 / Rest APIs / JSON

- a major priority was accessibility and optimization so all types of users could easily use the site. This was especially important for a Bank which was government subsidized and had previous lawsuits over this issue.

D) **Bunge** - - <https://www.bunge.com> - built virtually all the components using <https://patternlab.io/> Javascript / Typescript / HTML / SASS/ CSS3 / Rest APIs / JSON
